

Genuine Zebra® Supplies

High Quality, Reliable Label and Ribbon Solutions

Genuine Zebra printer supplies leave a superior impression.

Zebra labels, tags and ribbons are specifically engineered for Zebra printers. And just like our printers, Zebra supplies are made to a higher standard. Genuine Zebra supplies minimise wear and tear on your print-head, reducing overall maintenance costs.

Wide Selection of Solutions

Zebra carries more than 1,000 combinations of high-quality, reliable labels, tags and ribbons — more than 300 of which are UL-recognised and CSA-accepted. That means whatever the application, we can provide an in-stock or custom-made solution for you.

Reliability on demand™

Count on Zebra supplies to:

- Minimise wear and tear on your print-head, reducing maintenance costs
- Maximise print quality from your Zebra printer
- Resist chemicals and solvents (e.g. Z-Xtreme™)
- Adhere in cold, hot, rough or dirty environments (e.g. PolyTrans™ High Heat)
- Arrive in as little as three working days

Zebra Has the Supplies for You

No single label, tag or ribbon is right for every application. Whether you need labels for chemical drums or circuit boards, tickets for a shuttle bus, ribbons that print extra long-lasting images or tags that withstand chemicals and solvents, Zebra has the right solution. Here are some of our star performers:

- The 2100 ribbon is a resin enhanced wax ribbon, offering superior abrasion resistance and durability in comparison to other wax products, as well as superb print quality.
- The 3200 ribbon is the best performing wax/resin ribbon in the industry for print quality, durability and chemical and solvent resistance. When combined with Z-Xtreme materials, you get unbeatable performance in the most extreme applications.
- When printed with the 5095 Performance Resin ribbon, your labels are smear-resistant in moist, abrasive and extreme temperatures, and chemical environments. This UL-recognised and CSA-accepted ribbon provides excellent print quality at low energy levels.
- Z-Ultimate® 5A labels are ideal for PCB or UL/CSA compliance labelling applications. These regulation-friendly labels offer superior resistance against extreme environments.
- Z-Xtreme 3000 White™ labels are specially designed to resist chemicals and solvents. This synthetic, rubber-based adhesive provides quick, initial tack for low surface energy plastic, glass and painted parts.

In Stock and Ready to Ship

Zebra's Zip Ship stocking programme has hundreds of ribbons and labels — including synthetics — in stock and ready to go. This means we can supply you with a labelling solution for many of your applications quickly and effectively, ideal if you need labels and ribbons in a hurry.

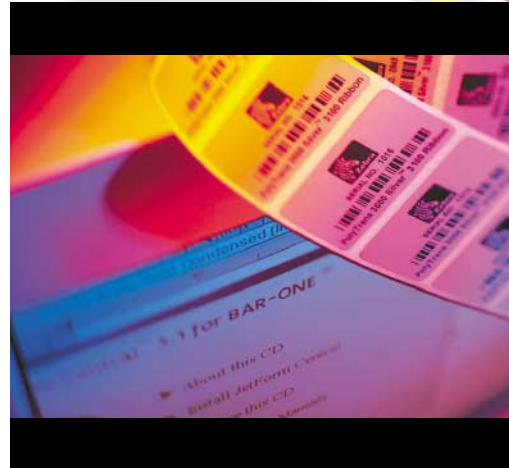

Not sure what you need? Take advantage of Zebra's Supplies Samples programme, and test before you buy!

Custom Solutions for Unique Applications

Zebra can make custom label/tag prototypes to meet your unique needs. In addition, our R & D team can simulate your application's environment and run tests on abrasion, outdoor exposure, low or high temperatures, peel, adhesion, release levels and more.

A World of Experience at Your Service

Zebra's network of experienced and knowledgeable distributors spans the globe. There's a distributor near you who knows which products work best with your printers and your applications. Our distributors can put together the label and ribbon combinations that are guaranteed to give you high-quality, long-lasting, scannable images.
